Career Objective

Motivated and detail-oriented Java Developer seeking an entry-level position to utilize academic knowledge in Java, OOPs, and web technologies while continuously enhancing my professional skills.

Skills

C Language, C++, Core Java, Multithreading, Exception Handling, Collection Framework, Java Servlet, JDBC, MYSQL, SQL, HTML, CSS

Projects

Job Portal System is a web-based application designed to connect job seekers and employers. Job seekers can register, create profiles, search and apply for jobs, while employers can post job openings and manage applications.
The system includes secure login, role-based access, and database-backed job listings.

Experience

Work Description:

Hands-on experience in Core Java, OOP concepts, Collections, Multithreading

Built web applications using Servlet, JSP and MVC architecture

Worked with databases like MySQL using JDBC / Hibernate ORM

Created REST-based services and implemented CRUD operations

Used tools: Eclipse/IntelliJ, Tomcat Server, Git & GitHub version control

Developed UI screens with HTML, CSS, Bootstrap, and JavaScript

Knowledge of Spring Boot, dependency injection, Spring MVC

Experience Highlights:

Designed and optimized database tables for faster query performance

Implemented login, session management & form validations

Participated in testing, debugging and improving code quality

Worked in a team environment using Agile development approach

Java Developer Work & Experience Description (1–2 Years)

Work Description:

Developed scalable backend applications using Java, Spring Boot & Microservices

Implemented secure REST APIs with JSON & Spring Security

Applied JDBC, Hibernate/JPA for data persistence and query optimization

Deployed applications on cloud environments like AWS / Azure

Used Maven/Gradle for build management and JUnit for testing

Experience Highlights:

Improved application performance by optimizing SQL queries

Integrated third-party APIs and implemented error handling & logging

Used Agile/Scrum methodologies and collaborated using Jira

Worked with Git branching workflows for version management

Education
10th, 12th, BCA, MCA
